

AZA REPORT

2023-2024

University of Arizona,
Eller College of Management

AZA
ADVANCED ZIPPERMAN ASSOCIATES

McCLELLAND HALL / Eller College of Management

Who Are Advanced Zipperman Associates?

Goals

We are a professional development organization focusing on careers in technology-related fields with a particular emphasis on consulting.

Each member has a minimum GPA of 3.5 and a double major in Management Information Systems and one other discipline.

Our mission is to foster not only academic achievement but also to cultivate an enterprising and adaptive mindset essential to success as a consultant.

The AZA program is sponsored through a generous donation by Walt Zipperman, a University of Arizona alumnus and founder of the consulting firm DAZ Systems, which was acquired by Accenture in 2018.

Class of 2024

Aaron Bustamante Reyes

17718 S Whispering Glen Path • Sahuarita, AZ 85629 • 520-223-0745 • aaronreyes@arizona.edu

Undergrad Student with 2+ years of work experience in Technology Consulting within a University Setting. Versatile, consistent, efficient and an outside-the-box problem solver. Currently serving in several leadership positions including VP of Finance in DECA and a shift lead for student tech consultants at UITS University of Arizona.

EDUCATION:

- **Major in Management Information Systems** University of Arizona, Tucson, AZ **(GPA: 3.67) Aug 2019 – May 2024**
- **Major in Finance** University of Arizona, Tucson, AZ **(GPA: 3.67) Aug 2019 – May 2024**

SKILLS:

- **Databases:** SQL
- **BI/Analytic Tools:** Parse Hub, Power BI, Tableau, RStudio,
- **Project Management:** MS Project, MS Visio, MS Excel
- **Courses:** Managing Information Systems, Database Management, MS Excel Lab

LEADERSHIP:

VP of Finance | Distributive Education Clubs of America (Collegiate DECA) Sep 2021 – Present

- Manage, invest, and distribute financial resources to ensure club goals/functions can be financially supported
- Collaborate with external sponsors and University Student Council to attain proper funding for the organization

ACADEMIC EXPERIENCE

Consultant | Consulting Project | University Of Arizona Bookstores, Tucson, AZ Tools: Excel, Tableau, MS Projects

- Conducted interviews with clients, determined business needs, and set realistic goals to be achieved on a reasonable timeline
- Analyzed current marketing plans, discussed new potential marketing campaigns, and set budget limitations
- Performed market analysis of other organizations and utilized other internal UA programs to develop a new marketing plan

Zipperman Scholars | Student Professional Development Program, Tucson, AZ

- Networked with the “Big Four” accounting firms and established a strong relationship with firm recruiters
- Trained on learning essential soft and social skills that are essential to succeeding in a professional environment
- Received leadership training that emphasized teamwork management and limited resource allocation

Consultant | Business Communication Project | Shamrock Farms, Phoenix, AZ Tools: Tableau, Arc GIS, Excel

- Collaborated with client to determine product launch goals and desired public relations goals
- Managed a team of six to develop a yearlong seasonal marketing campaign to market four new soft drink flavors
- Analyzed regional market trends and recommended a new flavor for the west coast markets in the United States

WORK EXPERIENCE

Data Analyst | Tech Core | Tucson, AZ Tools: Parse Hub, Excel, Power BI, Arc GIS

- Arranged meetings with clients (University of Arizona Athletics) to determine, and analyze business needs
- Extracted data from ESPN and 247 Sports to rank high school athletes and identify recruiting hot spots for UA athletics
- Extracted and aggregated UA Women’s Basketball Data, identified key performance shortcomings, and then used BI tools to communicate these shortcomings to UA Athletic directors

Technology Consultant | UITS | Tucson, AZ OCT 2021 – Present

- Managed the smooth transition of a new email migration to a group of 250 UA retirees
- Collaborated with human resources to facilitate the training of 15 new student employees
- Improved upon the script used by phone tech support services when interacting with clients over the phone
- Implemented a mentoring program that improved the performance ratings of three student employees

EXTRACURRICULAR ACTIVITIES

- Motorsport Racer
- Formula One
- Novice Rugby Player

A portrait of a young woman with long dark hair, bangs, and glasses, wearing a brown button-down shirt. She is looking directly at the camera against a plain, light-colored wall.

Class of 2024

BROOKE JACKO

Brookejacko10@gmail.com | (973)570-9277 | www.linkedin.com/in/brooke-jacko-nj12
1333 E Drachman Street, Tucson Arizona 85719

EXPERIENCE

June 2023-August
2023

Price Waterhouse Coopers, Digital Assurance and Transparency Intern

I collaborated closely with clients, coordinating efforts with my Digital Assurance and Transparency team as well as external audit teams to grasp the intricacies of our clients' systems and technologies. Our goal was to comprehend how they could effectively mitigate risks. I played a vital role in financial statement audits, consulting projects, and system implementation programs, offering support across multiple phases. Specifically, my duties encompassed conducting thorough data analysis to pinpoint potential risks within the data, a crucial step in identifying risks associated with our clients' information technology general controls.

May 2021- August
2022

Enchantment Resort, Pool Bar server

I was responsible for catering to the needs of the resort guest(s) and improving their experiences in any way possible. The resort is a 5-star resort which pushed me to give my guest(s) the best experience possible. While working, I was expected to be organized, attentive, flexible, friendly, and understanding. Although, this was just a seasonal job, which I got before resuming school in August, I feel that I learned and grew a lot in the short time working.

July 2018 - July 2020

Brierra Enterprises, Data Entry/Light Bookkeeping

I was accountable to input monthly financial transactions into QuickBooks. Troubleshoot any desktop issues. I was also responsible for the financial submissions of monthly bills and TPT taxes.

EDUCATION

The University of Arizona, *Tucson, Arizona*

Expected graduation year: Spring 2024

Major: Management Information Systems and Accounting

Current GPA: 3.7

KEY SKILLS AND CHARACTERISTICS

- Proficient in Microsoft Office Suite
- Knowledge of QuickBooks

- Knowledge of tableau
- Knowledge of Microsoft Access
- Proficient in Adobe Premiere Pro

AWARDS AND ACKNOWLEDGEMENTS/ OTHER ACTIVITIES

I was selected and I am currently participating in the Zipperman Honors scholars' program here at the University of Arizona. I feel this will help me even beyond my years at school. The Zipperman program has given me exposure to the MIS field and the opportunities available to me.

I am also an active member in the sorority of Pi Beta Phi. Pi Beta Phi has expanded my network opportunities and learn as a student and individual. I have worked with Pi Beta Phi to enhance individuals love for reading through our philanthropy.

Meet
Christian Farlin

Economics & MIS
Class of 2025

Comments

- It gave me the social skills and knowledge of the consulting industry to successfully network and attain a full-time offer with Deloitte.
- I like being able to meet people who have the same interests as me. I decided to join AZA because as a Zipperman Scholar the more knowledge I gained about consulting and MIS the more I wanted to learn. AZA has benefitted me by exposing me to the many options double majoring will grant to me as I develop my career after graduation. It has also exposed me to life skills and professional skills I have developed and grown on through the events I've attended. AZA is preparing me for future careers by creating connections with students, staff, speakers, and companies resulting in getting a summer internship which has turned into a job offer for me after graduation. This has helped me immensely as a senior, I'll always be grateful for the skills and memories AZA has created for me.
- Every time we've met as a group I've learned something applicable for my future career. I feel like the things I've learned in this club have helped me stand out with recruiters and in my internships.
- AZA has been a great resource to develop my skills through workshops and networking with professionals. Every time we meet I learn something new that I can see myself putting to use in my future career.
- Overall I have felt that AZA has not only helped me academically but also socially, and in my future. I was able to double major in two hard majors from the start and meet people who will support my academics. I met two people who would later complete my internship with me and we all accepted our full-time offer together. I feel as though I can confidently walk into a room and know how to act as an individual and also a leader. I feel this program taught me how to manage my time and forced me to step out of my comfort zone.

- I appreciate the ability to network with fellow highly motivated peers and business professionals. I joined the AZA program because I loved its pre-business "sister program" --Zipperman Scholars. Like Zipperman Scholars, I joined the AZA program because it presents a unique opportunity to build powerful networks with peers, Eller personnel, and business professionals across a broad swath of industries. The ability to learn from a variety of intelligent and experienced guest speakers helps me better understand how integral MIS is to the future of business, and how I can apply what I learn in AZA and the MIS major to real-world problems.
- What I like most about the AZA program is the opportunities it provides in a professional and social setting. AZA allows college students to interact and network with professionals in the MIS field while also socializing with peers who have similar interests. I decided to join AZA because I felt like it provided experiences similar to and an extension of the Zipperman Scholars Program. AZA has allowed me to connect with fellow students who share similar interests and have the drive to succeed in the classroom and beyond. Double majoring is not easy and takes tons of time and effort but is very rewarding when looking at the knowledge and exposure it gives to students. AZA has helped me demonstrate my work ethic and ambition to learn more about MIS while also studying accounting and I believe it has helped me be selected for highly competitive internships. AZA events have also provided networking opportunities with professionals in MIS/accounting which I have learned so much.
- Overall gives me a good network of like-minded, driven individuals pushing for success.
- I like being able to collaborate and interact with others pursuing a degree in MIS because I like to learn about their involvements and opportunities. I joined the AZA program so I could learn more about consulting and surround myself with individuals of similar interests. AZA has benefitted me by providing opportunities to see how MIS is applied to a variety of businesses, and this interests me because I can see how MIS is essential to fields I am interested in. AZA is preparing me for my career by giving me a foundation for MIS in professional settings and giving me the ability to network and ask MIS professionals questions.
- I love that the AZA program has an emphasis on consulting. I enjoy spending time with my peers who are driven and passionate about technology and the business world. It allows me to create relationships that will allow me to excel in my professional career.

- As a new member, I decided to join because I wanted to learn skills in consulting to prepare me for tax consulting. I'm excited to grow my professional network as well through this program.
- The community and professional development
- I decided to join the AZA program because of the skill development and networking opportunities they offer for the technology consulting industry. I thought this would be a great learning experience for me, as I am interested in going into the field and already have experience with tech consulting from my internship at Protiviti this past summer. The benefits of not only receiving knowledgeable skills and mentoring but also the sense of community from being part of a caring, tight-knit organization is something that is incredibly important for a professional career and for life in general. I look forward to learning from my peers and having a great semester overall. I am very thankful for this opportunity.
- I like the community and support from one another. I was able to practice for my upcoming interview with other AZA members and I ended up getting the offer. I decided to join AZA because I really wanted to have a group of people with similar goals and drive as me in academics. The AZA program has truly benefited me since I was able to meet amazing speakers, CEOs, and Eller alumni. I 100% feel that AZA is preparing me perfectly for my future career since there are many events to learn from and other members to reflect on. Personally, I was able to receive my internship offer with the help of everyone and AZA supporting me (cleaning up my resume, casing, and interviewing practice).
- I love the events and the people.
- AZA program is the only program on campus that provides a clear pathway into landing consulting positions at Big 4 Accounting and other consulting firms. I decided to join AZA because of the community the program fosters. I feel at home in AZA and the program caters to the group of driven over-achievers that we are. Ultimately, AZA provides a platform and the resources that enable us to grow and learn about who we truly want to become. AZA has prepared me for future careers by providing me the necessary knowledge to navigate the world of consulting. Without AZA, I would not have known about EY Consulting.

- The best part about the program in my opinion is the opportunity it gives me to network with different companies and industry professionals. Because of the strong alumni base, the program gives me a slight advantage as compared to my peers when applying for jobs and internships. Along with this, the stipend provided by the organization allows me to use that money towards doing extra training every semester on different platforms including Coursera which further helps me to showcase those skills on my resume, helping me get a better internship/job in the market. Lastly, being an AZA has proved to be a very good decision since all the benefits stated above come hand in hand with the organization along with the confidence and knowledge I've gained by just being a part of the program. Looking forward to the upcoming events arranged by the organization.
- I like AZA most for the community during college, as well as the alumni connections it provides. I decided to join because of the environment of like-minded individuals who want to excel in their careers and push their skills to be the best possible. I look forward to continuing my involvement in AZA!
- What I like the most about the AZA program is that it opens the opportunity to explore more of the options for my future career. I decided to join AZA because I wanted to explore more options in the MIS field combined with other areas of business. The AZA program benefitted me by letting me know more people who have the same passion as me and are applying for MIS in different fields of business field.
- I like how more personal the AZA program feels compared to the Zipperman Scholars. I joined AZA because it is the logical next step after being a Zip. Beyond the stipend, I have made contacts with fellow members to learn from for future careers.,
- AZA has taught me invaluable skills to set me up for my future career, including networking, data analytics, and leadership skills. The alumni network that this organization has created makes me confident about the resources that I have in any future career and excites me to be able to provide the same support for future AZAs. ,
- I like the community of like minded students supporting one another. As a student eager to have a career in consulting, AZA has provided me with great tools and resources to forge my path.

- Starting as a freshman I believed I wanted to major in Marketing. While this is still true thank you to the Zipperman program I am currently pursuing a double major in MIS and Marketing. Growing up as a technology enthusiast I decided to join the program because it was a way for me to immerse myself and gain experience in the industry. Quickly I realized technology was the path I wanted to take but what about Marketing? Through my involvement with Zipperman, I've come to understand that every facet of business requires interconnectivity and collaboration. Therefore, we encourage each other to pursue multiple interests and goals. As a member of the organization I have learned how to handle multiple tasks at a time, contribute to a team, and listen attentively to experienced professionals. I believe that all these qualities will be helpful in my professional ambitions. Through my time at Zipperman's, I have been able to form many friendships for we share not only high academic achievement but dreams to make an impact in the world.
- I like getting to know people who are going through similar classes and working towards a similar career path. I initially decided to join because of Dr. William Neumann as he encouraged me to also pursue a degree in MIS and I've stuck with it ever since. AZA has been pivotal in defining my upper-division experience at Eller. I interned with 2 other AZA members last summer and plan to work with them in the coming years; they have become a crucial support system for me as I navigate my time in Eller. I have explored countless career opportunities because of AZA and am more confident in choosing my future path. I have also formed lasting relationships with faculty and students who have made up a majority of my professional network
- The connections help as you spend a lot of time with your peers in AZA in classes. I joined AZA to gain more expertise in MIS and the opportunity to combine both my majors for application in the future. Developing connections with alumni through the New York trip was the best part, and I have stayed in touch with the connections I made. I feel that AZA has helped me explore and dive deeper into a lot of career paths that I wouldn't have otherwise.
- I joined AZA because I really enjoyed my time during the Zipperman Scholars program. I got to learn about the different fields within MIS and gain a better understanding of my own interests inside the industry. To further develop my knowledge, I went into the AZA program, and I have been liking it so far. It is my first semester in the program, but I really like that new members were able to attend the end-of-semester event last spring. It gave me a good idea of what to expect from this advanced program. I am excited to continue my time in AZA and am looking forward to the events planned this semester.

- I decided to join the AZA program to not only expand my knowledge of MIS, but I want to build relationships with my peers who also share the same passion for MIS. Even though this is my first semester of the AZA program, I am most excited to have a family where I can talk to them for advice and spend time with them.
- What I like most about the AZA is the networking opportunity with individuals who share the same goal and passion for careers. I also like the diverse range of learning opportunities about the consulting industry and the leadership role within AZA allows for professional development.
- Love the AZA program because it connects like-minded students together, that are also in the same classes. I have learned so much during the program and it gave me lots of advice -- (never would have gotten my AmEx internship without learning how to talk to recruiters, prep for interviews, etc.). I've also really enjoyed the program because the events we do are so fun and unlike any other club I've ever been a part of -- also AZA is extremely organized, much more so than clubs I have been a part of so it makes the whole experience a lot better.
- I like the professional aspect of the AZA program, particularly the trip to visit consulting firms and networking sessions with AZA alumni. The AZA program has introduced me to other career opportunities besides the traditional accounting career path. By utilizing the wide network of AZA, I got well-prepared before my interview and got multiple offers for multiple internships.
- Definitely the community support and firm-visiting event. I decided to join AZA to explore other career options beyond the traditional accounting career path. AZA prepared me with career prep and networking opportunities. Besides that, I also got different changes to improve my social skills through social activities and events.
- AZA has helped me with networking with recruiters, get connected with students with similar academic and career interests, and help build soft and technical skills.
- I decided to join the AZA program to better prepare myself for my professional career. While I have just joined the program, I feel as though the different networking opportunities and events planned for this semester/year will help me get where I want to go!
- I like most about AZA program is the connection with like-minded and high-achieving individuals. The connection has helped me with job searches, referrals, and be more involved in Eller.

Future Job Offers Received
